COMPANY HISTORY

S.Y.G.U. TRUCKING LLC is a dump trucking business in the construction industry, D.E.S.S. One Trucking is a trucking business that's in the Flatbed, Refrigerated, and Regular tractor-trailer industry that emerged from over two decades of intra and inter-state connection to the trucking industry. We've not only owned the logistics business but have also worked in the same industries and managed the ownership and sale of trucks.

Throughout this span, we've also observed the industry's evolution firsthand. Under the guidance of owner Eric O'Neil, our voyage has led us to a distinct understanding of how businesses unite in the trucking realm. We've been integral to the industry's transformations and progress, and now, we extend this experience to you.
